The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipated by Harris.

Harris teaches, at Figure 4, a seal which, when inserted into the structure, is deflected somewhat by the center pole which expands once it is forced through its mounting hole. This must be true because we know that in order to open the seal must return to a position wherein a gap is created between the seal and the inlet hole. Thus, the expansion of the center post on insertion does meet applicant's language requiring deflection of the seal "to ensure engagement" of the first and second seats.

Claims 37-39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-26 and 28-36 are allowed.

Applicant's arguments filed November 19, 2004 have been fully considered but they are not persuasive. In particular, the comments found above address why applicant's method claim continues to be anticipated by the prior art to Harris. The rejection using Beakley has been withdrawn.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
